

Nº 50558

APPLICATION FOR PERMIT
TO APPROPRIATE THE PUBLIC WATERS OF THE STATE OF NEVADA

Date of filing in State Engineer's Office..... FEB 2 1987

Returned to applicant for correction..... FEB 20 1987

Corrected application filed.....

Map filed..... APR 21 1987

The applicant..... Nevada Power Company.....

..... P.O. Box 230 of Las Vegas
Street and No. or P.O. Box No. City or Town

..... Nevada 89151 hereby make.... application for permission to appropriate the public
State and Zip Code No. waters of the State of Nevada, as hereinafter stated. (If applicant is a corporation, give date and place of incorporation; if a copartnership or association, give names of members.).....

1. The source of the proposed appropriation is..... underground.....
Name of stream, lake, spring, underground or other source

2. The amount of water applied for is..... 0.04 (18 gpm) second-feet
One second-foot equals 448.83 gals. per min.

(a) If stored in reservoir give number of acre-feet.....

3. The water to be used for..... other use.....
Irrigation, power, mining, manufacturing, domestic, or other use. Must limit to one use.

4. If use is for:

(a) Irrigation, state number of acres to be irrigated.....

(b) Stockwater, state number and kinds of animals to be watered.....

(c) Other use (describe fully under "No. 12. Remarks" see No. 12.....

(d) Power:

(1) Horsepower developed.....

(2) Point of return of water to stream.....

5. The water is to be diverted from its source at the following point within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Sec. 5,
Describe as being within a 40-acre subdivision of public
T. 15 S., R. 66 E., M.D.B.&M. at a point that bears North 43°40' East a distance
survey, and by course and distance to a section corner. If on unsurveyed land, it should be so stated.
of 3.025 feet from the Southwest corner of said Section 5.

6. Place of use within the NE $\frac{1}{4}$ SW $\frac{1}{4}$ of Section 5, T. 15 S., R. 66 E., M.D.B.&M.
Describe by legal subdivision. If on unsurveyed land, it should be so stated.
Pumped water will be re-injected into the same shallow aquifer, via a shallow
trench, and will not be placed to use,

7. Use will begin about..... January 1 and end about..... December 31 of each year.
Month and Day Month and Day

8. Description of proposed works. (Under the provisions of NRS 535.010 you may be required to submit plans and
specifications of your diversion or storage works.) well, pump and discharge pipeline
State manner in which water is to be diverted, i.e. diversion structure, ditches and
flumes, drilled well with pump and motor, etc.

9. Estimated cost of works..... \$10,000.....

10. Estimated time required to construct works..... 30 days
 If well completed, describe works.

11. Estimated time required to complete the application of water to beneficial use..... 2 years
 No beneficial use intended.

12. Remarks: For use other than irrigation or stock watering, state number and type of units to be served or annual consumptive use.

Dewatering of ground water to recover spilled diesel fuel floating on the
 groundwater as required by NDEP. Dewatering of 10.5 million gallons per year
 is expected. Completion of project is anticipated to be September 1, 1988.

APPROVAL.....OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions:

This permit is issued subject to existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance for pollution control as mandated by orders issued by the Nevada Division of Environmental Protection and subsequent correspondence with said agency. The right will cease to exist upon termination of clean up activity as determined by the Nevada Division of Environmental Protection. A totalizing meter must be installed and maintained in the discharge pipeline near the point of diversion and records of this measurement shall be submitted on an annual basis. It is also understood that this right must allow for a reasonable lowering of the static water level of permittee's well due to other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If the well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of water granted herein at any and all times.

This Permit does not extend the permittee the right of ingress and egress on public, private or corporate lands.

The issuance of this permit does not waive the requirements that the permit holder obtain other permits from State, Federal and local agencies.

This permit is issued under the provisions of NRS 534.120(2) as a preferred use. The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and

not to exceed 0.04 cubic feet per second, but not to exceed 9.44 million gallons annually.

Work must be prosecuted with reasonable diligence and be completed on or before September 2, 1988

Proof of completion of work shall be filed on or before October 2, 1988

Application of water to beneficial use shall be made on or before September 2, 1989

Proof of the application of water to beneficial use shall be filed on or before October 2, 1989

Map in support of proof of beneficial use shall be filed on or before N/A

Completion of work filed NOV 7 1988 IN TESTIMONY WHEREOF, I, PETER G. MORROS

State Engineer of Nevada, have hereunto set my hand and the seal of

Proof of beneficial use filed my office, this 2nd day of September
